

the new mcw low profile

**space-saving
chiller design**

MARINE AIR SYSTEMS®
AIR

Features and Benefits

- Reverse Cycle (standard)
- Hot gas bypass – maintains unit online while heating in low water temp conditions
- 25% more condenser area than similar low profile units – gives improved performance and reliability
- Distributor and manifold for refrigerant entering the condenser – improves condenser performance compared to units with headers
- Expansion valve – modulates refrigerant for improved performance
- R22 (standard) - 417A available
- Stainless steel drain pan
- Removable PVC water headers – resist corrosion and erosion
- Electrical box can be remote mounted – up to 6'

Marine Air Systems Introduces The New MCW Low Profile Chiller

MCW-LP 60 5 Ton Scroll Chiller

Height (in/mm)	Length (in/mm)	Depth (in/mm)	Weight (lbs/kg)
18.25/464	24.12/613	12/305	174/79
